Lokation:
Gamle Badevej 13A
4970 Rødby

About Femern Link Contractors

The Fehmarnbelt Connection is one of Europe's most comprehensive construction projects ever. It is run by an organization of close to 3.400 people building the world's longest immersed tunnel and the longest tunnel for both road and rail traffic. It will consist of a motorway and rail connection including an 18 km long tunnel that will allow travelling faster and safer between Scandinavia and continental Europe. It will take less than 3 hours to travel by train between Hamburg and Copenhagen (currently, 4½ hours).

FLC, Femern Link Contractors, is a joint venture of nine international construction companies with years of experience in large infrastructure projects. FLC is responsible for designing and constructing the immersed tunnel, tunnel portals, and ramps for the Femern project. The goal of the project is to deliver a state-of-the-art immersed tunnel, portals, and ramps on time, safely, and in a sustainable and ethical manner.

The Job

For FLC, Landau Headhunting is now looking for an experienced and insightful Senior Planning Engineer to support the Planning Management team with the expertise to deliver the project in the most effective manner and with solid scheduling & reporting updates.

So, in this role, your main responsibilities will be to:

- Support the Planning Management team within the Engineering, Procurement, and Construction scope.
- Provide solid scheduling updates, KPIs status, and effective communication.
- Develop and implement short-term programs and planning processes.

- Collect data and progress reporting from the site.
- Support time location development and 4D simulations.
- Facilitate communication between departments.

As FLC's Senior Planning Engineer you will have a challenging and independent job in an informal and international working environment. You will be working in interdisciplinary teams, where you can always count on support from committed colleagues.

Your Skills & Experience

We expect you to have an engineering background with experience in heavy infrastructure construction and subcontracting.

Being the ideal candidate, we presume that you possess the following qualifications:

- Bachelor's degree or equivalent in Civil Engineering or similar.
- 8+ years' experience in Planning, Scheduling, and Control in EPC of Heavy Infrastructure Projects.
- Competency with CPM scheduling software Oracle Primavera P6 EPPM.
- Competency in Linear Planning, 4D Construction Planning, BIM, and Project Control.
- Competency with Lean Construction approach and Last Planner System implementation.

What we expect from the candidates:

- Experience with Site Diaries and 4 Week Look Ahead processes and digital tools.
- Understanding of construction industry heavy equipment and subcontractor's Management.
- Proficiency in MS Office 365 and willingness to develop skills in Power BI.
- Strong verbal and written communication skills.
- Outstanding organizational abilities and technical mindset.
- Fluent in English with good command of technical terms.
- Strong analytical and reporting skills.

Conditions of Employment

FLC considers transparent management structures, short decision-making channels, and a team-oriented environment to be extremely important. The FLC staff is expected to set themselves targets, achieve them independently, and take responsibility for their actions – irrespective of their position in the company.

The Danish Salaried Employees Act applies, and FLC offers a pension, health insurance, and lunch arrangements. Your workplace will be Rødbyhavn, Denmark.

Here is your chance to challenge your personal and professional skills in a highly ambitious and professional environment. An attractive and challenging job in a unique project, which is constantly on the move.

Interested?

Please apply soonest possible (in English) by clicking the "Apply" button and thereby uploading your CV and application. For any additional information, please contact Mette Landau by phone +45 21 90 21 88.

Landau Headhunting will carry out the recruitment process. Therefore, all inquiries should be directed to Landau Headhunting. We will call in relevant candidates for interviews on an ongoing basis, and we reserve the right to call in candidates prior to the application deadline.

We are looking forward to hearing from you!
